

MONTANA 650

Overview

Take it hiking. Take it hunting. Take it on the water. Montana 650 features a bold 4 in. color touch screen dual orientation display and supports multiple mapping options like BirdsEye Satellite Imagery and it has a 5 megapixel camera to boot. Montana has key features for the outdoors such as a 3-axis tilt-compensated compass and barometric altimeter. Buy the auto mount and a City Navigator NT® map and it'll give you spoken turn-by-turn driving directions. It's big. It's versatile. It's tough. It earned the name Montana - the ultimate in touch screen toughness.

See the Big View

Montana 650 features a vast 4 in., sunlight-readable touch screen display that offers crystal clear enhanced colors and displays high-resolution images. It's easy-to-use interface means you'll spend more time enjoying the outdoors and less time searching for information. Both durable and waterproof, Montana 650 is built to withstand the elements. Bumps, dust, dirt, humidity and water are no match for this rugged navigator. No matter the setting – on the boat, in the RV or on an ATV – Montana is right at home.

Take Geotagged Pictures

Capture locations and memories with Montana 650's 5 megapixel digital camera. Each photo is Geotagged automatically with the location of where it was taken, allowing you to navigate back to that exact spot in the future. Snap and view pictures in landscape or portrait orientation. To keep track of your photos and show their location on a map, simply connect Montana 650 via USB and use Garmin's free Base Camp software. For more storage, insert a microSD™ card; you can even view pictures from other devices on microSD with Montana's picture viewer.

Go Anywhere

With an array of compatible mounts, Montana 650 is designed for use on ATV's, in boats, as a handheld or in your car as a personal navigator. Use the auto mount with City Navigator maps for spoken, turn-by-turn driving directions, or the rugged mount for your motorcycle or ATV. Wherever you think you might take Montana, it has the mapping and mounts to get you there.

Go Everywhere

Adding more maps is easy with Garmin's wide array of detailed topographic, marine and road maps. With its microSD™ card slot, Montana 650 lets you load TOPO U.S. 24K maps and hit the trail, plug in BlueChart® g2 preloaded cards for a great day on the water or City Navigator map data for turn-by-turn routing on roads (see maps tab for compatible maps). Montana 650 also supports BirdsEye Satellite Imagery (subscription required), that lets you download satellite images to your device and integrate them with your maps. In addition, Montana is compatible with Custom Maps, free software that transforms paper and electronic maps into downloadable maps for your device.

Share Wirelessly

With Montana 650 you can share your waypoints, tracks, routes and geocaches wirelessly with other compatible Garmin GPS users. So now your friends also can enjoy your favorite hike or cache – simply press “send” to transfer your information to similar units, and let the games begin.

Keep Your Fix

With its high-sensitivity, WAAS-enabled GPS receiver and HotFix® satellite prediction, Montana 650 locates your position quickly and precisely and maintains its GPS location even in heavy cover and deep canyons. The advantage is clear — whether you're in deep woods or just near tall buildings and trees, you can count on Montana 650 to help you find your way when you need it the most.

Navigate with Ease

Montana 650 has a built-in 3-axis tilt-compensated electronic compass, which shows your heading even when you're standing still, without holding it level. Its barometric altimeter tracks changes in pressure to pinpoint your precise altitude, and you even can use it to plot barometric pressure over time, which can help you keep an eye on changing weather conditions.

Double Your Power

Montana 650 features a one-of-a-kind dual battery system. You'll have the option of using the rechargeable lithium-ion pack or traditional AA batteries – whichever suits your needs better.

Find Fun

Montana 650 supports geocaching GPX files for downloading geocaches and details straight to your unit. Visit OpenCaching.com to start your geocaching adventure. By going paperless, you're not only helping the environment but also improving efficiency. Montana 650 stores and displays key information, including location, terrain, difficulty, hints and descriptions, which means no more manually entering coordinates and paper print outs! Simply upload the GPX file to your unit and start hunting for caches.

Plan Your Next Trip

Take charge of your next adventure with BaseCamp™, software to view and organize your maps, waypoints, routes, and tracks and send them to your Garmin device. This free trip-planning software displays topographic map data in 2-D or 3-D on your computer screen, including contour lines and elevation profiles. It also can transfer an unlimited amount of satellite images when paired with a BirdsEye Satellite Imagery subscription as well as geotag photos, or associate them with specific waypoints.

❖ Features

Easier to Customize

➤ Advanced Shortcut Features

Whether it's loading an application, navigating to a waypoint, switching your profile or customizing specific settings to your needs, advanced shortcuts lets you combine these functions to create a custom-tailored, streamlined experience. Each Montana comes with pre-loaded shortcuts – Go Home, Track Log On/Off and Stop Navigation – to get you started.

➤ More Dashboards in More Places

With 1 touch of the power button, you can pull up a multi-orientation dashboard from anywhere – your map, home screen, compass, trip computer, status page and more – so you can create more dashboards in more places.

➤ Fully Customizable Homescreen

Whether you go somewhere often, continually change settings or create shortcuts, Montana's fully customizable home screen allows you to bring up to 16 items from "Where To?," "Setup" and "Shortcuts" to your home screen so you can easily access them without having to click between screens.

➤ **Reorderable Menu Options**

Reorder any menu however you like with this new feature, which keeps you from constantly scrolling to the bottom of a long list.

➤ **Smarter Profiles**

Montana's smarter profiles feature remembers which profile you were using, based on the mount, so when you're off-roading or trying to find a bike shop, it will put you in the right frame of mind so you can get on your way quickly.

➤ **Adaptable Controls**

Don't like the way something is set up? No worries. With a tap of a button, you can configure your applications easily and quickly with adaptable controls. Have to mount on the right handle bar? No problem. Montana can accommodate left- or right-handed setups based on the screen orientation.

❖ **Big and Tough – Goes anywhere, everywhere**

- Uses map data to display your “full track view” so you know what you’re up against
- Logs everything (waypoints, tracks, caches, etc.) on your calendar so you can review (or brag) about your accomplishments later
- Changes to “night mode” automatically so your eyes stay focused even when the sun goes down
- Includes a QWERTY keyboard so you can find what you need and take notes faster
- Helps you keep your bearings straight by letting you to lock your screen to keep it from shifting directions (portrait to landscape or vice versa)
- Includes a 5 megapixel camera; each photo automatically is geotagged with the location of where it was taken
- Includes a microSD™ card slot so you can load topographic maps (for the trail) or BlueChart® g2preloaded cards (for the water). Also supports BirdsEye Satellite Imagery and Custom Maps
- Shares waypoints, tracks, routes and geocaches wirelessly with other compatible Garmin GPS users
- Locates your position quickly and precisely and maintains it even in heavy cover and deep canyons
- Includes a built-in 3-axis tilt-compensated electronic compass and barometric altimeter
- Features a one-of-a-kind dual battery system; you can use the rechargeable lithium-ion pack or traditional AA batteries
- Supports geocaching GPX files for downloading geocaches and details straight to your unit

❖ **SPECIFICATIONS:**

Physical & Performance:	
Unit dimensions, WxHxD:	2.3" x 4.5" x 1.4" (5.8 x 11.4 x 3.5 cm)
Display size, WxH:	1.53"W x 2.55"H (3.8 x 6.3 cm); 3" diag (7.6 cm)
Display resolution, WxH:	240 x 400 pixels
Display type:	transflective color TFT touchscreen
Weight:	6.8 oz (192.7 g) with batteries
Battery:	2 AA NiMH batteries (included)
Battery life:	16 hours
Waterproof:	yes (IPX7)
Floats:	no
High-sensitivity receiver:	yes

Interface:	high-speed USB and NMEA 0183 compatible
Maps and Memory:	
Basemap:	yes
Preloaded maps:	no
Ability to add maps:	yes
Built-in memory:	850 MB
Accepts data cards:	microSD™ card (not included)
Waypoints/favorites/locations:	2000
Routes:	200
Track log:	10,000 points, 200 saved tracks
Features and Benefits:	
Automatic routing (turn by turn routing on roads):	yes (with optional mapping for detailed roads)
Electronic compass:	yes (tilt-compensated, 3-axis)
Touchscreen:	yes
Barometric altimeter:	yes
Camera:	yes (3.2 megapixel with autofocus; 4x digital zoom)
Geocaching-friendly:	yes (paperless)
Custom maps compatible:	yes
Photo navigation (navigate to geotagged photos):	yes
Hunt/fish calendar:	yes
Sun and moon information:	yes
Tide tables:	Yes (with optional Bluechart)
Area calculation:	yes
Custom POIs (ability to add additional points of interest):	yes
Unit-to-unit transfer (shares data wirelessly with similar units):	yes
Picture viewer:	yes
Garmin Connect™ compatible (online community where you analyze, categorize and share data):	yes
